## SARENS EFFICIENTLY COMPLETES TIME-SENSITIVE HEAVY LIFTS DURING REFINERY TURNAROUND JOB

Sarens recently formed a collaborative working relationship with Kellogg, Brown & Root (KBR) of Dallas, Texas, to support the construction and expansion activities at an oil refinery in Corpus Christi, Texas. Expertise to manage all facets of the heavy lifting requirements of the project included a Terex CC8000-1 crawler crane which provided heavy lifting support for component installation.
