NCIG Coal Export Terminal Stage 2AA
LETTER OF THANKS

On behalf of Aurecon Hatch and Newcastle Coal Infrastructure Group ("NCIG") we take this opportunity to formally acknowledge your companies contribution over the past week, to the successful recovery of the SR03 slew deck.

We thank Sarens Australia for its outstanding efforts, in particular for working around-the-clock at such short notice, safely and cooperatively with others. Aurecon Hatch looks forward to Sarens continued efforts and cooperation in striving to deliver a successful outcome for all involved in the NCIG Coal Export Terminal Stage 2AA Project.

One measure of a project team is how well they cope with, and recover from, setbacks. This once again demonstrates that an outstanding team is currently engaged on this project.

Yours faithfully,

Michael Clark
Area Manager
Aurecon Hatch

Wayne Dawson
Construction Manager
