

## Offshore activities

Sarens has been a heavy lift partner for offshore projects for 30 years. Until now we successfully executed more than 200 larger projects handling weights related to offshore activities up to 18.000 t.

We proudly present a few of these references from recent years. During the following years, we will keep on pushing ourselves as your preferred Heavy Lift partner, by offering the best technical solutions in accordance with the highest offshore standards and by performing your projects in the safest and most efficient way.
