

# SARENS BRIDGE INSTALLATIONS

## • DISCOVER OUR SCOPE

- land transport of bridge elements
- water transport of bridge elements
- bridge installations
- removal of old bridges / existing structures
- installation management including project management and SHEQ

## • KEY BENEFITS

- specialized equipment
- creative and tailor-made solutions
- in-house design
- engineering capabilities
- rich history in replacement and installation technologies
- state-of-the-art interventions with emphasis on safety and operational excellence

## BRIDGE INSTALLATIONS
