MARCH 25, 2016 IN NORTH AMERICA

([HTTP://WWW.BREAKBULK.COM/CATEGORY/NORTH-AMERICA/](http://www.breakbulk.com/category/north-america/)) TAGGED: THE SARENS
GROUP ([HTTP://WWW.BREAKBULK.COM/TAG/THE-SARENS-GROUP/](http://www.breakbulk.com/tag/the-sarens-group/)) SARENS TO
SUPPLY HEAVY-LIFT CRANES TO KBR ([HTTP://WWW.BREAKBULK.COM/SARENS-TO-
SUPPLY-HEAVY-LIFT-CRANES-TO-KBR/](http://www.breakbulk.com/sarens-to-supply-heavy-lift-cranes-to-kbr/))

SARENS TO SUPPLY HEAVY-LIFT CRANES TO KBR

Crane rental firm Sarens Group has signed a contract to supply two 1,600-tonne cranes to engineering firm Kellogg, Brown & Root.

The cranes will be used for construction and expansion activities at an oil refinery in Corpus Christi, Texas. The contract begins in March and is expected to take 10 months to complete. Work includes heavy-lift and placement procedures for two hydrocracker reactor vessels.

The largest of these reactor units weighs 359.7 tonnes, and alongside the two cranes the lifting process will require a CC8800-1 crane with 84 meters of main boom and a super-lift tray containing 640 tonnes of ballast weight.

"The main challenge for this contract is the site will be active at the time of our heavy-lift and rigging operations. The crane must also be set back from the installation site to clear major plant equipment, so the combination of distance and reactor weight made the CC8800-1 the right crane for the job," said Sean Poynter, Sarens USA project estimator.

Belgium-based Sarens Group provides heavy-lifting and engineering expertise and equipment worldwide via a network of more than 100 subsidiaries in 54 countries.
