

SARENS WIND ONSHORE

• DISCOVER OUR SCOPE

- On and offshore wind farm Installation
- Wind turbine maintenance
- Blade repair and blade change out
- Customized engineering solutions
- Wind farm decommissioning
- Turnkey projects
- Crane rental only
- Project management

• KEY BENEFITS

- Working by the highest SHEQ standards
- High level of experience
- State-of-the-art equipment
- Global partnership with wind turbine manufactures
- Turbine-specific lifting and transport solutions
- Local and global equipment support
- Auxiliary equipment support

• REFERENCES

- total of 17 GW installed up to today
- over 8.500 WTGs installed worldwide
- average installation of 800 WTGs / year
- over 125 projects installed per year
- world record of approximately hub height of 149m

• SOLUTIONS

- Hydraulic cranes up to 1.200T
- Lattice boom truck cranes
- Crawler cranes and narrow-track
- Jack and roll systems
- Auxiliary equipment and rigging support
- Specialized transport
- Boom booster CC 8800
- Boom booster SL 3800

**ENGINEERING IS THE CLOSEST THING TO
MAGIC THAT EXISTS IN THE WORLD.**

ELON MUSK, CIRCA 2015.
