Launching The Biggest Crane in the World - The SGC-250!

On November 9th, Sarens launched the world's biggest crane! We were joined by over 1500 Sarens friends and employees to celebrate this proud day. The event was the perfect opportunity to reflect on the past, enjoy the present, and consider the bright future that Sarens has to look forward to. We hope you enjoy this piece of the party wherever you are on the planet!

Sarens Wishes you Happy Holidays!

As we all say goodbye to 2018 and look towards 2019, remember that big things grow from small beginnings. At Sarens, it all started with a tree trunk - now, we have the world's largest crane. We want to encourage you all to take the first small step; it might lead to the next big thing!
