

HEAVYWEIGHT NEWS

In Multi-Phase Operation, Sarens Replaces Railway Bridge in Stockholm City Centre

Implenia Sweden AB recently contracted Sarens to replace an old railway bridge in the busy city centre of Stockholm, an operation that involved loading out three new bridge sections in Tallinn, Estonia; transporting them on Sarens' largest seagoing barge and several inland vessels; and installing them in Stockholm using the 'floatover' method.

Sarens Insights: When We Said 'No' to 'Safety First' (And Why)

At Sarens, we've worked hard to create a culture that always puts safety first. So when a client asked us to proudly hang "SAFETY FIRST" banners from a crane, we had to say no.
