ROYAL IHC

**"WE HAVE BOTH OUR OWN R&D DEPARTMENT AND COLLABORATE CLOSELY WITH OTHER TECHNOLOGICAL INSTITUTES AND UNIVERSITIES."**

Kenmare and Royal IHC, this best-in-class, bespoke dredger will deliver additional tonnage, while reducing unit costs. This vessel sets a new benchmark for the mining industry," adds Greve.

The design of the mining CSD, named JULIA, is based on the success of the design of the first two vessels IHC built for Kenmare. Both Kenmare's operational experience and IHC's extensive knowledge of dredging

Shipyard in Kinderdijk

## SARENS: THE GLOBAL LEADER AND REFERENCE IN THE HEAVY LIFT AND SPECIALISED TRANSPORT INDUSTRY

SARENS IS THE RECOGNIZED WORLDWIDE LEADER AND REFERENCE IN CRANE RENTAL SERVICES, HEAVY LIFTING, AND ENGINEERED TRANSPORT. WITH STATE OF THE ART EQUIPMENT AND VALUE ENGINEERING, WE OFFER OUR CLIENTS CREATIVE AND INTELLIGENT SOLUTIONS TO TODAY'S HEAVY LIFTING AND ENGINEERED TRANSPORT CHALLENGES.

With more than 100 entities in 65 countries operating without borders, we are the ideal partner for small-scale to megascale projects. We currently employ 4543 professionals and diligently man our clients' projects with top market talent from across the world. Safety and excellence in all we do are paramount to us.

Sarens has been the market leader for over 63 years; over four Sarens family generations are intimately involved in this business. Our success lies in our entrepreneurial spirit and our continued dedication to our job. However, taking heavy lifting and engineered transport seriously is for us not just a matter of DNA and a family tradition but, most importantly, a vocation. The legacy that our proud craftsmen build by deploying our five unwavering values: brilliant solutions, dedication to safety, zeal for excellence, love for traditions, and global spirit. We will keep breaking ground and securing that your project is delivered in the fastest, safest, and smartest way.

Sarens offers the following key services for the heavy lifting and specialised transport industry:

• Technical Solutions • Rental • Maintenance

We have the biggest fleet of cranes and transport trailers in the market, all of which are available for rent and projects. If you have a project that requires heavy lifting, Sarens is able to provide everything you need. Our cranes are quickly available, and can be deployed all around the world.

We recently launched the biggest crane on planet earth - the SGC-250 (Sarens Giant Crane - 250) at the port of Ghent, in Belgium. Sarens SGC-250, the largest and the mightiest crane in the world in both size and capacity, has a maximum load moment of 250.000TM, allowing it to lift an astonishing 5.000T. Even at a larger radius of 100 metres, it can lift an amazing 2.000T. SGC-250, designed in-house, has the most unique ability in the global crane industry to relocate the fully-rigged crane on site from one lifting position to another. The crane has two sets of wheels: one for slewing 360° and one for travelling. The second set is hydraulically retractable and is pushed out whenever the crane needs to travel.
