## Sarens Powers Vietnam's Energy Future with Quang Trach 1 Thermal Power Plant Project

Sarens in Vietnam is playing a pivotal role in Vietnam's energy sector by supporting the construction of the Quang Trach 1 Thermal Power Plant in Quang Binh Province. This large-scale project, which began in August 2023, is expected to be completed by August 2025. Once operational, the plant will significantly enhance Vietnam's energy capacity, contributing approximately 8,4 billion kWh annually to the national power grid. This milestone underscores Sarens' commitment to bolstering energy security and driving sustainable development.
